L3HARRIS®

L3Harris Technologies is the Trusted Disruptor in the defense industry.

With customers' mission-critical needs always in mind, our ~50,000 employees deliver end-to-end technology solutions connecting the space, air, land, sea and cyber domains in the interest of national security.

**GLOBAL REACH:
SERVING OVER
100 COUNTRIES**

FOUR MISSION-ALIGNED SEGMENTS

Space and Airborne Systems

\$6.9B

Ed Zoiss

President,
Space & Airborne
Systems

SAS is a leading provider of full mission solutions as a prime and subsystem integrator in the space, airborne and cyber domains. We provide top-tier capabilities in the design, development, integration, production and sustainment of major weapons systems for defense primes and national security, civil government and international customers.

Headquarters
Palm Bay,
Florida

Integrated Mission Systems

\$6.6B

Jon Rambeau

President,
Integrated Mission
Systems

IMS is a leading provider of differentiated mission capabilities and prime systems integration for the air, land and sea domains. We deliver top-tier capabilities in the design, development, integration, production, modernization and sustainment of intelligence, surveillance, and reconnaissance (ISR), passive sensing and targeting, electronic attack, autonomy, power and communications, networks and sensors for national security and international customers.

Headquarters
Palm Bay,
Florida

Communication Systems

\$5.1B

Samir Mehta

President,
Communication
Systems

CS enables warfighters across all domains with solutions critical to mission success even in the most contested environments. We are a leading provider of resilient communications solutions for the U.S. Department of Defense (DoD), international, federal and state agency customers.

Headquarters
Rochester,
New York

Aerojet Rocketdyne

\$1.1B*

Ross Niebergall

President,
Aerojet
Rocketdyne

AR is a leading provider of propulsion, power and armament products and systems to the U.S. government, including the DoD, National Aeronautics and Space Administration (NASA) and major aerospace and defense prime contractors.

SPACE AND AIRBORNE SYSTEMS

\$6.9B

**2023
REVENUE**

Space

End-to-end mission solutions to support intelligence, surveillance and reconnaissance; missile defense; positioning, navigation and timing; weather and climate monitoring; and ground-based space surveillance networks

Airborne Combat Systems

Threat warning and counter-measures for airborne, ground and maritime platforms. Sensors, processors, hardened electronics, unmanned aircraft systems, precision weapons, infrared search and tracking, distributed aperture systems and precision pointing, release systems and antennas for aircraft.

Intel and Cyber

Situational awareness, information resilience, robotics and advanced wireless solutions

Mission Networks

Communications, information management and surveillance networking solutions for air traffic management, defense and security customers.

INTEGRATED MISSION SYSTEMS

\$6.6B

**2023
REVENUE**

ISR

Airborne passive sensing and targeting, mission systems development, integration and life-cycle management for strategic reconnaissance, national command and control, tactical surveillance, electronic attack, agile strike, mobility, and classified platforms

Maritime

Power, electrical, imaging, communication, and sensor systems for manned platforms; integrated unmanned autonomous vessels for surface and undersea; fleet management, in-service support, missionization prototyping and naval integration

Global Optical Systems

Multi-domain, multi-spectral electro-optical and infrared (EO/IR) surveillance and targeting systems supporting intelligence, surveillance, reconnaissance and target acquisition missions; manufacturing of specialty laser and filter glass materials, laser range finders, target designators and transmitters

Defense Electronics

Space communications and avionics, range safety receivers, power distribution and control, data acquisition, flight computers and navigation; fuzing, navigation and range-testing solutions, precision electronic components, electronic safe and arm devices, ignition safety devices, proximity sensors

Commercial Aviation Solutions (CAS)

Integrated aircraft avionics, pilot training and data analytics services for the commercial aviation industry

COMMUNICATION SYSTEMS

\$5.1B

2023
REVENUE

Tactical Communications

Design, manufacture and sustainment of resilient and secure communications solutions that include tactical radios, software, satellite terminals and end-to-end battlefield systems

Broadband Communications

Design, manufacture and sustainment of resilient and secure communications solutions that include ISR and tactical data links, software and integrated broadband networks

Integrated Vision Solutions

Design, manufacture and sustainment of a full suite of helmet-mounted integrated night vision goggles with leading-edge image intensifier tubes and weapon-mounted sights, aiming lasers and range finders

Public Safety

State-of-the-art communications equipment, systems and applications for federal agencies, state and local government first responders, utilities, transit agencies and commercial customers

AEROJET ROCKETDYNE

\$1.1B*

**2023
REVENUE**

Mission Solutions

Propulsion technologies and armament systems for strategic defense, missile defense, hypersonic and tactical systems

Space Propulsion and Power Systems

Premier propulsion and power systems provider for national security, space and exploration missions

**Aerojet Rocketdyne results reflect the 5-month post-acquisition period*
